

B-SHARP sharpening machine

CODE 19939

- Sturdy frame in stainless steel 304L
- Quick and easy use (patented principle), same blade guide as on the Sharp'Easy, keeping the angle stable
- Inclined band for better ergonomics (movement of the wrist)
- Blade sharpening in **convex shape** for better performance over time
- No need to adjust the angle of the belts
- Replacement of belts without any tools, easy and fast; the sharpening bands are motor-weight tensionned
- Dry belts with pyramidal grain to avoid overheating of the knife (patented bands)
- No burr
- Saves time: 5 seconds per knife
Able to sharpen the knives precisely without any ajustement
Slide the knife smoothly 2-3 times maximum
